## **DETAILED ACTION**

### ***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

First Species: figures 11A and 11B

Second Species: figures 12A and 12B

Third Species: figures 13A and 13B

Fourth Species: figures 14A and 14B

Fifth Species: figures 15A and 15B

Sixth Species: figures 16A and 16B

Seventh Species: figures 17A and 17B

Eighth Species: figures 18A and 18B

Ninth Species: figures 19A and 19B

Tenth Species: figures 20, 21, 26

Eleventh Species: figures 22-24, 27

Twelfth Species: figure 25

Thirteenth Species: figures 28, 29

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there is no generic claim.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
